Dated 7-11-1955

[Despatch Abstract.]

R.W.S. - South Kanara District - Udipi Taluk - Provision of drinking water facilities - Trial boring at an estimated cost of Rs.620/- Recommendation of the Board of Revenue - Approved.

Copy of letter dated 10-3-55 from Sri T.A. Pai, M.L.A. Madras, addressed to the Minister for Fisheries, Government of Madras.

I am enclosing a petition submitted by fishermen in my constituency. I commend specially the requests No. 1 and 3.

There are no drinking facilities for most part of the year and Tube well seems to be the only solution. Would you kindly direct the digging of a tube well in the place?

~~Available Government land also may be granted for house building for the landless poor among fishermen.~~

I request these steps be taken as expeditiously as possible.

(True copy)

A | This may be examined and circulated.

(Sd) M. Bhakthavathsalam,
10-3-55.

Extract from petition dated 17-1-1955 from the Fishermen of Kadekar and Kuthpadi, Udipi Taluk, ~~address~~ submitted to Sri T.A. Pai, M.L.A., Udipi.

As the popular representative of Udipi Constituency in the Madras Legislature, we are proud that you have been striving very hard for the common good of this constituency and have earned a reputation which is envied by the other elected representatives. The spontaneous expression of your anxiety to help the Villagers of these two villages in the course of your Presidential Address on the occasion of the opening of Post Office in Padukere is one for which we are all grateful to you. We beg to represent herebelow some of our immediate requirements and pray that you may be pleased to do everything possible to help us in these matters. We assure you our closest co operation in all possible ways and in the manner you may guide us in these matters.

1. The ~~Kaudu~~ Padukere being isolated from the main land has to be self-contained in drinking Water-supply. But during the best part of the year, the villagers here have to cross the river and get drinking water from the mainland, which causes untold hardship and inconvenience to one and all. Sinking of Tube Wells or construction of wells is a dire necessity and a long felt need.

This may be examined.

(Sd) M.B.

Sub:- Rural Water Supply (South Kanara) Udipi Taluk - Kaddikar and Kuthapadi village - Provision of drinking facilities Proposals - Remarks - Furnished.

Ref:- Board's No.19892-55 F.P.VII.A. dated 22.7.55.

---

1. The Board, while forwarding a copy of letter No.L.Dis.13579/55 dated 6.6.55 of the Collector of South Kanara, has called for my remark as to whether there is any liklihood of getting good water throughout the year if tube wells are constructed in Kadikar & Kuthapadi villages in South Kanara District.

2. The Assistant Director of Industries and Commerce, Managalore who was addressed in the matter, had reported that the villages of Kadikar and Kuthapadi form a belt of land between the Arabian sea and the Udyavar river and is about 100 yards wide and 4 miles long. There are a number of dug wells all along about 10'-0" to 15'-0" deep and the daily water level varies from 7'-0" below ground level during high tide to 13'-0" below ground level during low tide. This is the only river water which percolates into these wells. During the summer months of January to May the water in the river turns saline, and this saline water fids its way into the wells. The strata upto 30'-0" is fine sand and hard rock (granite) beneath. Due to sandy nature of the area and the river, the power drill cannot be transported to the villages. But as an experiment a boring with a H.B. set may be put down to a sufficient depth or till rock is met with during the month of February or March to ascertain if fresh water can be tapped, If however fresh springs cannot be tapped during this period then attempts may be made to bore through rock if possible. An estimate for putting down a boring to a depth of 50'-0" below ground level is furnished below.

Estimate.

1. Transport charges of an H.B. Set.		Rs. 150-0-0
2. Labour charges - 6 men at Rs.1-4-0 per head per day for 15 days (5days in soil and 10 days in rock).		Rs. 112-8-0
Cost of pipes and shoe.		Rs. 300-0-0
Miscellaneous.		Rs. 57-8-0
	Total	Rs. 620-0-0

In case good potable water is tapped, a hand pump will have to be fitted up for which separate provision has to be made.

NOTE FOR CIRCULATION.

In their petition dated 17-1-1955, the fishermen of Kadekar and Kuthapadi have represented that the Pudukere in South Kanara ~~Panchayat~~ District, being isolated from the main land, has to be self-contained in drinking water supply. The Collector of South Kanara has stated that Padukere is the name of the locality, which is a long strip of land, between sea and Udyavar river and consist of portions of Revenue Villages Kodavur, Kidiyar, Kadekar, Kuthapadi and Udayavar Villages. He has also stated that the water in wells of the villages turn saline during the period from January to May and ~~thesis~~ this is due to the proximity to the Arabian Sea. He has, therefore, suggested that tube wells may be sunk in these villages.

2. The Director of Industries and Commerce has stated that the power drill cannot be transported to the above villages due to sandy nature of the area and the river, but as an experiment a boring with Hand-boring set may be put down to a sufficient depth or till rock is met with during the month of February or March to ascertain whether fresh water can be tapped. He has also stated that if fresh springs cannot be tapped during this period then attempts may be made to bore through rock, if possible. The cost for putting down a boring to a depth of 50'-0" below ground level is estimated at Rs.620/-. The D.I. & C. has suggested that in case, good potable water is tapped, a hand pump will have to be ~~fitted~~ fitted up for which separate provision has to be made. The Board of Revenue has recommended the suggestion of the D.I. & C.

(P.T.O.)

4.880
5 56 28.10

3.This Dept. have proposed that the suggestion of the D.I. & C., as recommended by the Board of Revenue, that a trial at a cost of Rs.620/- may be made, in the first instance to determine the availability of potable water in Pudukera, may be accepted. The cost of the scheme will be ~~not~~ on from R.W.S. funds either under R.W.S. comprehensive Scheme or under L.D. Works Programme. Finance Dept. have agreed to the above proposal.

The file may be circulated to M.(H.) and M.(Agri.).
